GitHub: github.com/Manishkumar9525

Education

Bengal College of Engineering and Technology, Durgapur
Bachelor of Technology in Information technology

2022 – 2026
CGPA: 7.26

Experience

Infosys Springboard

Sep 2025 – Nov 2025

Full Stack Developer Intern

[GitHub](#) — [Live](#)

- Engineered responsive and scalable user interfaces and high-performance dashboards using **React.js** for **Civix**, driving a **12% increase in user engagement** and improving **Google PageSpeed Insights score by 18 points**.
- Implemented backend services using **Node.js** and **Express.js**, including **JWT-based authentication** and RESTful APIs for secure user management.
- Designed and managed **MongoDB** database schemas for storing user data and petition records, ensuring optimized queries and data consistency.
- Created UI/UX prototypes and wireframes in **Figma**, improving usability and user interaction by **20%**.

Projects

CareerPath AI – Personalized Career Roadmap Generator

[GitHub](#) (2026 - Ongoing)

- Pioneered an **AI-driven career roadmap generator** using **React.js**, **Tailwind CSS**, and **JavaScript**, cutting down the average user time to generate personalized career paths by **40%** using **YouTube Data API**.
- Integrated **YouTube Data API v3**, processing over **4,000 API requests daily**, to deliver real-time learning resources within the career roadmap generator, ensuring up-to-date and relevant educational content.
- Implemented modular architecture reducing codebase by **15%**, improving scalability and maintainability.
- Wrote basic unit tests and performed debugging to ensure stable feature delivery..
- Tech Stack:** React.js, Tailwind CSS, JavaScript, YouTube Data API v3.

AquaVeda – Water Conservation Platform

[GitHub](#)

- Engineered a **wiki-based water conservation platform** using the **MERN stack**, which became the primary point of contact for **7 users** in the first week of launch, exceeding initial usability goals.
- Implemented responsive design across 3 breakpoints, improving mobile Lighthouse accessibility score — foundation of the SIH 2024 finalist submission.
- Developed **three reusable UI components** in **React.js** to display real-time water conservation data, reducing development time for subsequent features by **20%** and improving code maintainability.
- Tech Stack:** React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Mapping APIs.

Personal Portfolio Website

[GitHub](#)

- Constructed and launched a **personal portfolio** employing **React.js**, **TypeScript**, **Vite**, and **Tailwind CSS**, securing **3 interviews** and positive feedback on design and functionality.
- Developed a modular React component library with **12+ reusable elements**, reducing redundant code by **15%**.
- Improved website accessibility score by **20 points (Google Lighthouse)**.
- Tech Stack:** React.js, TypeScript, Tailwind CSS, Vite.

Achievements

- Smart India Hackathon 2024 Finalist** – Led team to the **Top 5** among **500+ ideas** by developing a wiki-based Water Conservation Platform; represented the institute at the national finale.
- Completed certifications in Web Development and UI/UX Design via Infosys Springboard.

Technical Skills

Programming Languages: C, C++, JavaScript, SQL, Python (Basic)

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, MySQL, Mongoose

Tools Platforms: Git, GitHub, VS Code, Postman, Vercel, Netlify, Cloudinary

Core Concepts: Data Structures Algorithms, OOP, DBMS, Authentication Authorization, API Integration

Testing Development: API Testing, Debugging, Basic Unit Testing

Extracurricular Activities

- Cricket Team Captain:** Led the college cricket team, demonstrating leadership and teamwork.
